

REMARKS

Applicants have added dependent claims 34-42 to specifically claim particular details encompassed within various facets of the present invention. In particular, claims 34-42 are directed to different facets of first in, first out operation, as defined in the present specification and referenced patents. Applicants submit that in view of the originally filed application, the present Preliminary Amendment adds no new matter.

Respectfully submitted,

DORITY & MANNING, P.A.

Jeffrey M. Karmilovich
